**Theory of Multiple Intelligences**

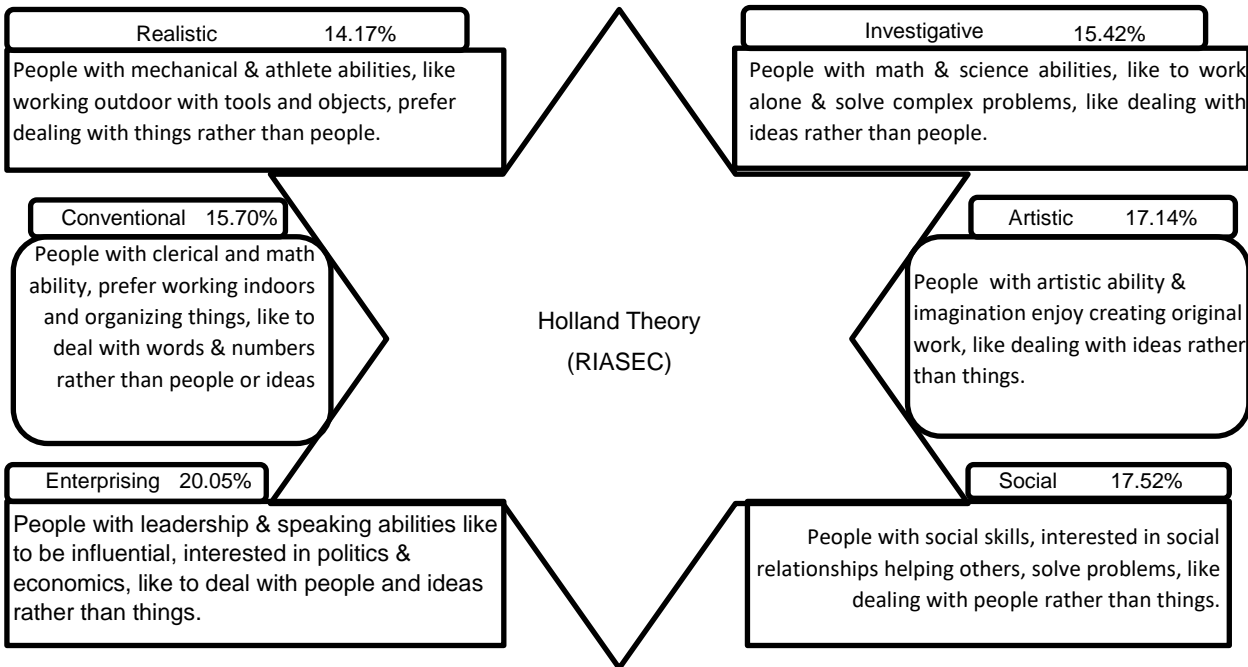

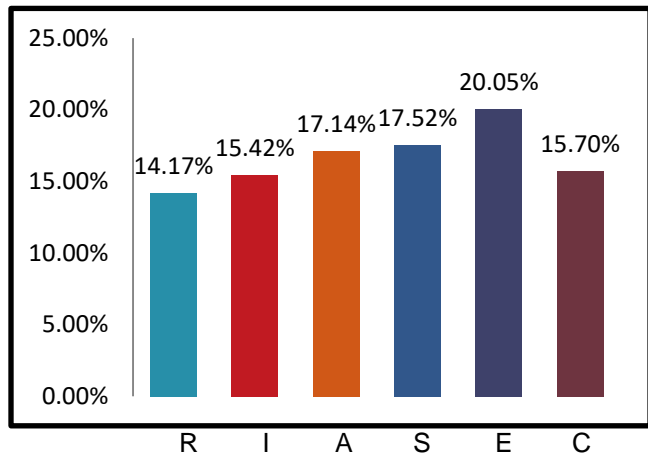

**Dr. Howard Gardner**, a renowned Scientist, Psychologist & Educationist is the Hobbs Professor of Cognition and Education at the Harvard Graduate School of Education & Senior Director of Harvard Project Zero. Among numerous honors, Gardner received a MacArthur Prize Fellowship in 1981. He has received honorary degrees from twenty-two colleges and universities.

In 2005 he was selected by Foreign Policy and Prospect magazines as one of 100 most influential public intellectuals in the world. The author of over twenty books translated into twenty-seven languages & several hundred articles. Gardner is best known in educational circles for his "**Theory of Multiple Intelligences**" proposed in 1983, which has been widely accepted by science all over the world. And today there are many schools across the world, which are running on the education pattern of "Theory of Multiple Intelligence". He has also written extensively on Creativity, Leadership & Professional Ethics. His latest book Five Minds for the Future was published in April 2007. **Here are the details of 8 multiple intelligences proposed by him.**

# Holland Theory

## The Story Of Quotients

Every individual has multiple quotient which vary from individual to individual instead of just focusing on the IQ, commonly known as Intelligent Quotient. Today the Corporate world uses series of tests to determine one's quotients such as Emotional Quotient (E.Q), Adversity Quotient (A.Q) and Creative Quotient (C.Q). Kindly refer to the distribution chart which depicts the extent of your various quotients and helps you understand your true abilities as an individual today-

### Intelligent Quotient - IQ

97

It consists of a combination of logical, mathematical and linguistic intelligence. The ability to think in an abstract manner and grasp essentials of any given situation is powered by the Intelligence quotient of an individual.

### Emotional Quotient - EQ

123

It consists of a combination of Intra-personal, Musical and Inter-personal intelligences. There is a high degree of self-awareness and insight of other's feelings. Motivation, empathy, compassion are the key strengths associated with high E.Q individuals which helps them to understand emotions of themselves and others and adjust and behave accordingly. There is also a direct correlation associated between music and emotional quotients.

### Creativity Quotient - CQ

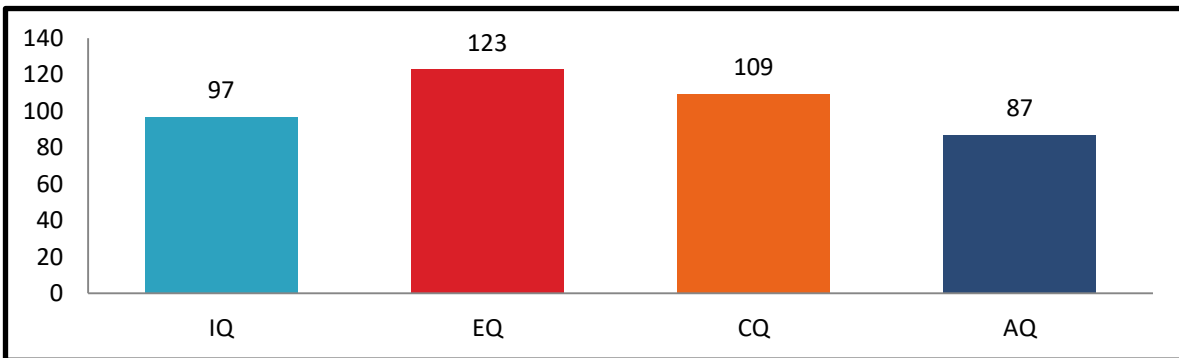

109

It consists of a combination of Visual-spatial and Intra-personal intelligence. Individuals with a high degree of C.Q have a natural inclination and an ability to generate innovative ideas and turn them into performance and reality.

### Adversity Quotient - AQ

87

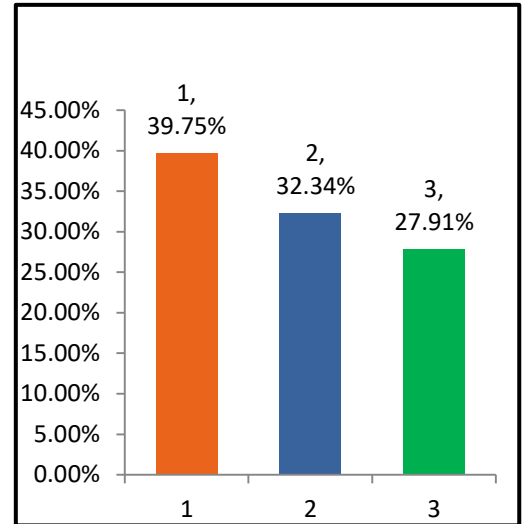

It consists of a combination of Bodily-kinesthetic and Inter-personal intelligences. The ability to effectively respond to all trials and tribulations and adversities. An individual with a high A.Q can withstand adversity at all odds and has the ability to surmount all obstacles and has a very strong undefeated spirit, despite possible failures.

# VAK Theory

Learning styles are various approaches or ways of learning. They involve an individual's natural or habitual pattern of acquiring and processing information best suitable in learning situations. One of the most common and widely used categorization of the various types of learning is Neil Fleming's VAK model that uses three main sensory receivers: Visual, Auditory, and Kinesthetic (movement) to determine the dominant learning style of a person. Learners use all three modalities to receive and learn new information and experiences. However, according to the VAK or modality theory, one or two of these receiving styles is normally dominant. The theory is composed of a combination of perception and memory. The most dominant inborn style may not always to be the same for all tasks. The learner may prefer one style of learning for one task, and a combination of others for a different task. So, it is more of a preference than a style.

## 1. Visual Learner

39.75%

## 2. Auditory Learner

32.34%

## 3. Kinesthetic Learner

27.91%

## Career Options

### Medical

Doctor	**	Pharmacist	*
